## YOUR PREMIUM TIPSTER PROFIT REPORT

### AN INTRODUCTION WITH PETER LING

Welcome to this special Premium Tipster Profit Report - your prime location for finding out the very latest results, commentary and performance on all the top tipster services that we operate at the Secret Betting Club.

#### WHAT IS A PREMIUM TIPSTER?

A Premium Tipster is one which we offer exclusive access to via the Secret Betting Club for those keen to maximise their ongoing betting profits.

Each Premium Tipster has either been developed with a proven betting expert alongside the SBC team or handpicked to provide exclusive and often heavily discounted access to top performing betting tips. Many of them are long-running services, with several years of profit behind them and all operated by professional gamblers.

All Premium Tipsters are offered with one key overarching goal – to help you make more money from your betting.

#### WHY CHOOSE A PREMIUM TIPSTER?

Each Premium Tipster we offer has been chosen by the team at the Secret Betting Club to provide the **best product possible** for those looking to **make money betting**.

Often providing **high-quality betting tips** in conjunction with a professional gambler and showcasing how to maximise your profits through **expert techniques**, they can make a major difference to your betting bottom-line.

To ensure high quality, we also only offer a small number of Premium Tipsters for each sport and/or betting market as our focus is on quality, not quantity.

#### MORE ON PREMIUM

All of SBC's hand-picked Premium Products have been proven records of **generating long-term betting profits** or providing invaluable expertise.

This is based on our 11+ years of operating within the tipster and betting industry, during which time we have worked and discovered some of the best experts out there.

All of our Premium products operate to the highest standards and are from a reputable source.

To ensure each Premium Tipster is as practical as possible to follow, we also regularly control membership numbers to protect the potency of the services for all. This ensures that the odds remain achievable and available for all subscribers.

#### WHY ARE THEY NOT INCLUDED IN THE NORMAL TIPSTER PROFIT REPORTS?

As SBC has a declared interest in each Premium Tipster, we do therefore not include them in the normal Tipster Profit Reports to ensure independence.

Hence the need for a standalone Premium Tipster Profit Report such as this to outline the performance of each service.

# PREMIUM TIPSTERS: INDIVIDUAL PERFORMANCE PAGES

## EACH SERVICE EXPLAINED & SHORT/LONG-TERM RESULTS

To explain more on each Premium Tipster, you can read an individual rundown on each service in the SBC ranks currently via the following section.

You will find a range of key info including points betting bank, number of months the service has been active and the ROI+ figure.

For each service, you can also view their key performance stats (bet number, profit, ROI & ROC) for the past 6 and 12 months as well as all-time.

Furthermore, you can also view this performance in the context of 3 different betting bank sizes: £2000, £5000 and £10,000. This is outlined in 2 tables – annualised profits and 12-month profit after subscription fees.

## UNDERSTANDING KEY TERMS

Here you can find explanations for several key terms that are often referenced through this report:

**ROI (Return On Investment):** This is a key metric equating just how much you would have to risk to make a profit. The calculation is a simple figure of profit divided by total amount staked AKA profit on turnover. 10% ROI means £10 profit for every £100 staked.

**ROI+:** This takes the ROI figure above to a second level as it gauges over how many bets it was generated from. The calculation is a simple figure of ROI multiplied by the number of bets. This rewards those tipsters who maintain a solid ROI over a large number of bets.

**ROC (Return on Capital):** This gauges just how profitable a service is in relation to the betting bank. I.E. 43% would mean a profit of £430 on a £1000 bank.

**Annualised Profit:** This is one of our favourite calculations as it considers all elements of a service's results and reveals what you will make following each service on an average annual basis. To arrive at this figure, we take the ROC and divide it by the number of months the service has been active. We then multiply this by 12 to get an annualised profit figure.

**12 Month Profit After Fees:** Each tipster charges a fee for their advice, so this calculation reveals the total profit over a 12-month period minus these fees.

With an average of around 10 to 15 bets per day, it can reward those of you with the time and bookmaker accounts available to make steady, regular betting profits.

**Results Update:** It's been a very good 6 and 12 month period for the Morning Value Service with 13.69% and 11.89% ROI respectively over these 2 time periods. To the recommended 300 point betting bank, this equates to some excellent profit figures with over 157% growth in the last 12 months alone. You can expect 5-10 tips per day of any festival meeting.

**Recommended For:** Any punters who prefer to bet selectively at the big race meetings. Also those punters who struggle with account restrictions as getting on festival value tips is much easier with higher limits on offer from bookmakers.

# MVS LITE

## RACING TIPSTER

**Website:** <https://secretbettingclub.com/morning-value-lite/>

**Discount:** No discount but service currently only available to SBC members

**SBC Member Cost:** 6 months for £269 and 12 months for £399. [Subscribe](#)

**Description:** The Morning Value Service Lite (or MVS Lite for short) is an outstanding horse racing tipster service, providing 2-3 tips on average per day between the price range 7/4 and 3/1.

As the name suggests – these tips are the same that are generated by the busier Morning Value Service, but focuses only on those between 7/4 and 3/1. The full Morning Value Service picks out bets all the way up to 20/1.

This concentration on tips between 7/4 and 3/1 allows the service to hit a very high strike-rate, with an average of 3-4 tips on any given day. Given the high strike-rate, the service also makes outstanding profits if backing tips as doubles.

**Recommended For:** All punters interested in a simple, easy to follow service with a 11% ROI from backing single tips and 30% upwards as doubles. As you are backing short bets there is no issue with betting restrictions and you can also use the exchanges to get good value.

**Results Update:** The profits for this service keep rolling in with a huge 17.76% ROI and 85.70% betting bank growth in just the last 6 months alone. Considering the relatively low number of tips (just 434 in the past 6 months) this equates to a £1985 profit after fees at a £2000 bank during the last 12 months. This is before you even consider the phenomenal returns if backing all tips as doubles (30%+ ROI)

**SBC Member Cost:** n/a

**Description:** Pinpoint Golf is a high volume golf tipping service advising several bets for many of the weekly golf tournaments. Tipping only in the outright markets – this allow followers to place all bets via the exchanges and turn over the betting bank very quickly. *Please Note - The Pinpoint Golf service is not currently available to new subscribers although given the interest in their service (especially via those of you reading about it on the Bet Diary Pro blog) I have included their results within this report.*

**Recommended For:** Punters with plenty of time available to place large number of bets weekly.

**Results Update:** It's been a superb 6 months for Pinpoint Golf followers with a 22.76% ROI and 71% ROC based on 1190 bets. Averaging just under 200 bets per month (between 40 to 50 per week) it shows the benefits of such a high volume betting approach, especially given the availability of odds on the exchanges. The fact that a £5000 betting bank will have returned £4004 after subscription fees over the past 12 months is just one example of this in action.

**Recommended For:** Racing punters looking for a proven tipping expert with a huge record of profitable past performance at fair odds.

**Results Update:** During the past 12 months, Jason has slipped slightly from his usual high standards after suffering a couple of bad runs, notably in March and April of 2017. He remains a tipster capable of turning it all around quite quickly as we have seen with exceptional months such as in May 2017. His annualised profit returns help to showcase what he has achieved with £3371 profit in an average year to a £2000 betting bank. This after all is a tipster with a record of 14.46% ROI, 477.6% ROC and all from 3881 bets since 2014.
